

Professional Treatments Rejuvenation and Maintenance

The results achieved using the nimue home care programmes are impressive, but when combined with the professional nimue treatments available in the skin treatment salon, results are outstanding. The expertise of nimue and the skin treatment professional is combined to treat and improve skin condition and health.

This is made possible due to the expertly designed results orientated treatments aimed at solving specific concerns pertaining to each skin classification.

These treatment programmes are only performed by highly qualified nimue skin treatment professionals.

Bio Active Complex

The Bio Active Complex is a scientifically advanced 5% anti-aging peptide complex, Alpha-Hydroxy Acid, Vitamin C, and Retinol.

Alpha Lipoic Activator Treatment

Designed to post-treat skin after laser, chemical peel, or microdermabrasion, this treatment helps reduce redness, swelling, and irritation. It also helps to soothe and hydrate the skin, promoting a healthy and glowing complexion.

Maintenance Treatment

Designed to be used as a maintenance treatment, the professional collagen face film is designed to help improve skin texture and hydration.

Professional Eye Treatment

The Collagen Eye Film provides a stable, long-lasting, and comfortable eye mask film that provides hydration
