PROFESSIONAL

The New Smooth™

Lillian's Beauty Salon specialises in advanced body sugaring, we are trained and certified by Alexandria Professional.

Professional Body Sugar Epilation is a safe, gentle and effective solution to hair extraction for women, men and children. Advanced Body Sugar Epilation offers numerous unique and diverse benefits.

The most important advantage is very fundamental: the Alexandria technique and sugar paste extracts the hair in its natural direction of growth and does so when the hair is still in the early growth stage. This eliminates breakage, unnecessary discomfort, irritation and ingrown hairs while exfoliating dry skin cells.

The result: smooth, beautiful skin, without the discomforts of other epilation techniques.
